Required	DSIO_1_T3.KID
	Sprint 8 Builds
	Sprint 9 Builds
	DSIO_1_S10_B1.KID
KIDS Filename	DSIO_1_S10_B2.KID
Installation: Normal KIDS install through Kernel Installation & Distribution System	

Description of Changes and Enhancements

Functionality **VistA M enhancements for Maternity Care**
Customer VA
Category Innovation

S#	Date	Notes
1	04/30/2014	DSIO_1_S10_B2.KID
CORE: (*THIS COULD POSSIBLE AFFECT THE MCC DASHBOARD*)		
<ul style="list-style-type: none">- DSIO GET PERSON - PHONE FORMAT- DSIO VPR - FAMILY - UPDATED FOF- REMOVED FOF FROM DSIO GET SINGLE VALUE- DSIO TRACKING HISTORY - TOOK OUT SCREEN FOR .01- ROUTINE RESTRUCTURE- DSIO SAVE PREG OBSERVATION (RPC)- DSIO PREGNANCY OBSERVATIONS (FILE)- DSIO GET PREG OBSERVATIONS (RPC)		
<ol style="list-style-type: none">1. We should be able to Add pregnancies without requiring an EDD or FOF.<ol style="list-style-type: none">a. You can add a pregnancy without an FOF or more appropriate "UNSPECIFIED"b. EDD is really the only thing associated with a pregnancy – without it I have nothing to associate back to our files2. We should also be able to Update, Delete, and Retrieve pregnancies by patient.<ol style="list-style-type: none">a. I asked about this during the call today and you stated that you did not need a list of pregnancies.b. You can create a new pregnancy log – the WV PREGNANCY LOG file works a lot like tracking (DSIO ADD PREGNANCY LOG)c. You can update a pregnancy log by passing the same EDD and a new FOF – the FOF will change		

(DSIO ADD PREGNANCY LOG)

- d. Changing the EDD creates a new log
- e. I thought you were an advocate against deleting?
- 3. Each pregnancy should have a unique Id
 - a. A pregnancy is a pregnancy log – it has an IEN
 - b. Adding a Pregnancy log returns the IEN to WV PREGNANCY LOG and the variable pointer (IEN) to FOF if an FOF was added – now changed to return the DSIO PERSON multiple IEN as the second piece
- 4. A pregnancy should be either: (YES)
 - a. Current: Information about a current pregnancy
 - b. Historical: Information about a previous pregnancy

For DSIO PERSONS...

- 1. Add a unique id (Ien) for each entry
 - a. Already the case – returned as the first piece, returned as the 3rd piece of DSIO ADD PREGNANCY LOG, DSIO SAVE FATHER OF FETUS – now returns variable pointer IEN
- 2. Allow retrieval of an entry using Ien
 - a. Already the case – pass the variable pointer IEN through the NAME parameter.
- 3. Allow adding of an entry without it being attached to a specific pregnancy.
 - a. Already the case – DFN and EDD are optional for DSIO SAVE FATHER OF FETUS
- 4. Allow updating and deleting of entries
 - a. While entries cannot be deleted they can be updated in DSIO PERSONS if a name match is found, this could be expanded to use the variable pointer IEN

Components:

Type: SINGLE PACKAGE	National Package: NO
----------------------	----------------------

File #	File Name	Update DD	Send Sec. Code	Data Comes w/ file	Site Date	RSLVPTRS	User Override
19641	DSIO PATIENT	YES	YES	NO			
19641.11	DSIO PERSONS	YES	YES	NO			
19641.12	DSIO PREGNANCY OBSERVATION	YES	YES	NO			
19641.2	DSIO TRACKING HISTORY	YES	YES	NO			

ROUTINE:
