Introduction

Product Description

The Maternity Tracker project addresses the gaps in VistA for Maternity Tracking and Monitoring through a combination of field tested enhancements for better screening, tracking, monitoring, and sharing of maternity data, as well as improving women Veteran's access to earlier pre-natal care, complete postpartum care, and education information with an emphasis on care coordination in and outside of the VA.

Security Keys and Menu Options

To access the Maternity Tracker application, all general users must have the following added to the New Person file in VistA:

Secondary Menu Option - **DSIO GUI CONTEXT**

Getting Started Using Maternity Tracker

Accessing Maternity Tracker

To access the login screen, find the web address for MT and add the shortcut to the desktop.

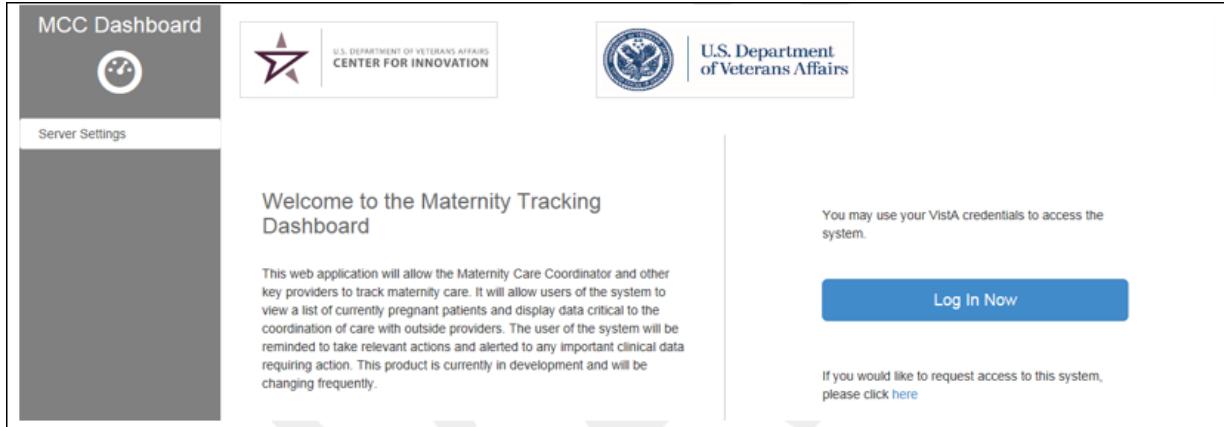

Figure 1: Welcome to the Maternity Tracker Dashboard

Select **HERE** to request first-time access, complete the email message, and send. Click **Log In Now** to access the application.

Sign In

To sign in to the application, enter your VistA (CPRS) credentials, and click **Sign In**.

A screenshot of the Sign In page. It features a "Sign In" heading and two input fields: "Access Code" and "Verify Code". Below these fields is a blue "Sign in" button.

Figure 2: Sign In

The user may be asked to select an appropriate Division. Click the radio button for the correct Division. The user is taken to the MCC Dashboard.

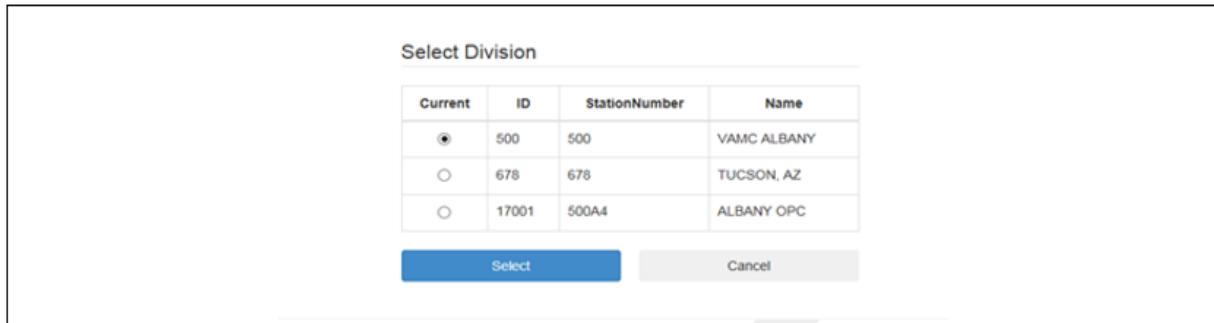

Figure 3: Select Division

Alerts

The user can view their Alerts by selecting the option from the menu. The Alerts window opens to display pending work by patient. Click **Tracked Patients** to exit the Alerts page.

Alerts					
Info	Patient	Location	Urgency	Alert Date/Time	Message

Figure 4: Alerts Display

Sign Out

To sign out of MT, select the **Sign Out** option from the Dashboard menu.

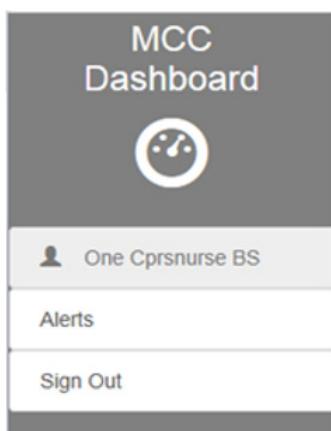

Figure 5: Sign Out

MCC Dashboard Elements and Functionality – Tracking / Configuration

Upon opening, the Maternity Care Coordinator (MCC) Dashboard default displays five (5) selections: Dashboard, Tracked Patients, Flagged Patients, Track A Patient, and Tracking History. The main window displays the Dashboard page.

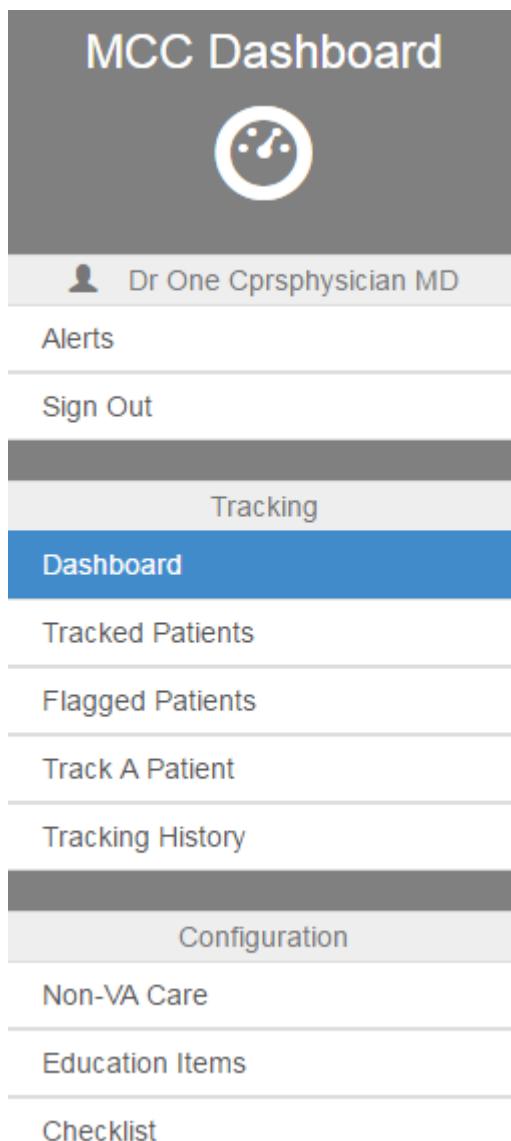

Figure 6: Main Dashboard

Dashboard

The Dashboard page is a graphical representation of statistical information.

- The number of Tracked Patients, Flagged Patients, Due This Week and High Risk Pregnancies are shown at the top of the page.
- Pie charts display the number of Patient by Trimester, Text4Baby Enrollment, and Historical Outcomes.
- Table for Items Due by Patient name and Due Date.
- Bar charts for the number of Deliveries/Outcomes and Expected Deliveries.

Figure 7: Dashboard Page

Tracked Patients

The Tracked Patients screen displays an alphabetic list of the patients currently tracked using the MT application. For each patient the list includes; Name, Last 4 (digits of social security numbers), Age, Phone number, Non-VA OB, L&D facility, Pregnant status, Tri (Trimester), GA (Gestational Age), and EDD (Estimated Delivery Date). These fields cannot be edited from this page. Each column is sortable by clicking in the header of the column.

Figure 9: Filter Options

Flagged Patients

In CPRS, a consult request for OB care, an addition of PREGNANT to the Problem List, or a positive lab test for pregnancy triggers that patient into the list of Flagged Patients. From this list, the user can track the patient in MT. The list includes Name, SSN, DOB, Flagged On date and time, Details and Action (Accept/Reject).

Name	SSN	DOB	Flagged On	Details	Action
Acmpatient, Eight	XXX-XX-6789	12/6/1990	8/29/2014 1:16:31 PM	Consult Request: Consult Request Pregnant	Accept Reject

Figure 10: Flagged Patients

Flagged Patient Details

By selecting the item in the Details column for the patient, the user will get the Flagged Patient Details page that displays the data used to determine flagging and a list of the patient's most recent progress notes in CPRS.

Flagged Patient Details

BUXJBHUS, JELUAXSSH
XXX-XX-2222
8/2/1970 (Age: 44)
Not Pregnant
G? P????

This system has flagged this patient for tracking based on the following data:

Date/Time	User	Source	Reason
7/1/2014 11:40:49 AM	Rolistaff,Chief O	Lab Pregnant	Positive Serum Test

Patient's most recent progress notes:

Date/Time	Author	Location	Title	Action
8/31/2000 11:00:00 AM	HHYIUN,ZDBH	MIKES MENTAL CLINIC	DOM REHAB NOTE	View
8/22/2000 5:53:00 PM	EDJEHAKHUFHU,YLYJN	MIKES MENTAL CLINIC	TOM BOILERPLATE	View
8/22/2000 4:56:00 PM	EDJEHAKHUFHU,YLYJN	MIKES MENTAL CLINIC	CLINICAL WARNING	View

[Return to List](#) [Accept](#) [Reject](#)

Figure 11: Flagged Patient Details

Progress Notes

By clicking the **View** action, the progress note will open and the page will include options to Return to List, Return to Details, Accept, and Reject.

CNT— Clinical Note Templates have been created for users to document patient care in CPRS. The (5) five templates are OB HISTORY NOTE, OB H&P CONSULT, OB FOLLOWUP NOTE, NURSE POSTPARTUM- Delivery, and NURSE POSTPARTUM- Maternal (See Chapter 4). These notes will be visible in MT.

Another note type in CPRS is the MD POSTPARTUM FOLLOWUP. This will also be visible in MT, but it is not a CNT.

The screenshot shows a progress note view. At the top left, there is a green box containing patient information: BUXJBHUS, JELUAXSSH, XXX-XX-2222, 8/2/1970 (Age: 44), Not Pregnant, and G? P????. Below this, the text "Progress note:" is followed by a large text area containing a medical note. The note includes fields for LOCAL TITLE, DATE OF NOTE, AUTHOR, EXP COSIGNER, URGENCY, and STATUS. It lists several observations separated by underscores. At the bottom of the note area, there is a signature line with "/es/" and "IRM CONSULTANT" followed by the date "Signed: 12/06/2000 11:20". At the bottom right, there are four buttons: "Return to List", "Return to Details", "Accept" (highlighted in green), and "Reject".

BUXJBHUS, JELUAXSSH
XXX-XX-2222

Return to List Return to Details Accept Reject

Figure 12: Progress Note View

Accept/Reject

To accept or reject a patient for tracking in MT, the user may make the selection on either the Flagged Patient List page in the Action column, or the Progress Note page, by choosing from the appropriate command.

Figure 13: Action Column (Flagged Patients)

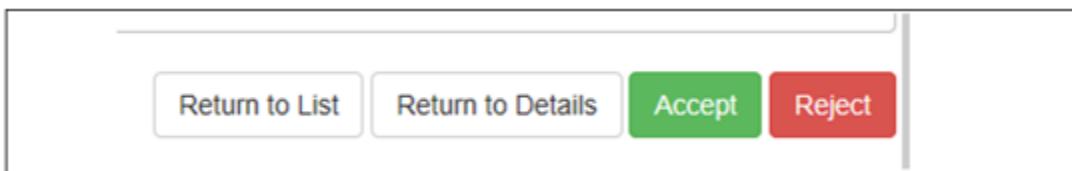

Figure 14: Command Buttons (Progress Note View)

By clicking **Accept**, the user will get an Accept Flagged Patient confirmation screen, where a comment can be added to a text box. The user may **Accept Tracking** or select **Back** which will return the user to the previous page without tracking this patient. Once the patient is accepted, the user will be taken to the Tracked Patients Screen and see their patient added to the list.

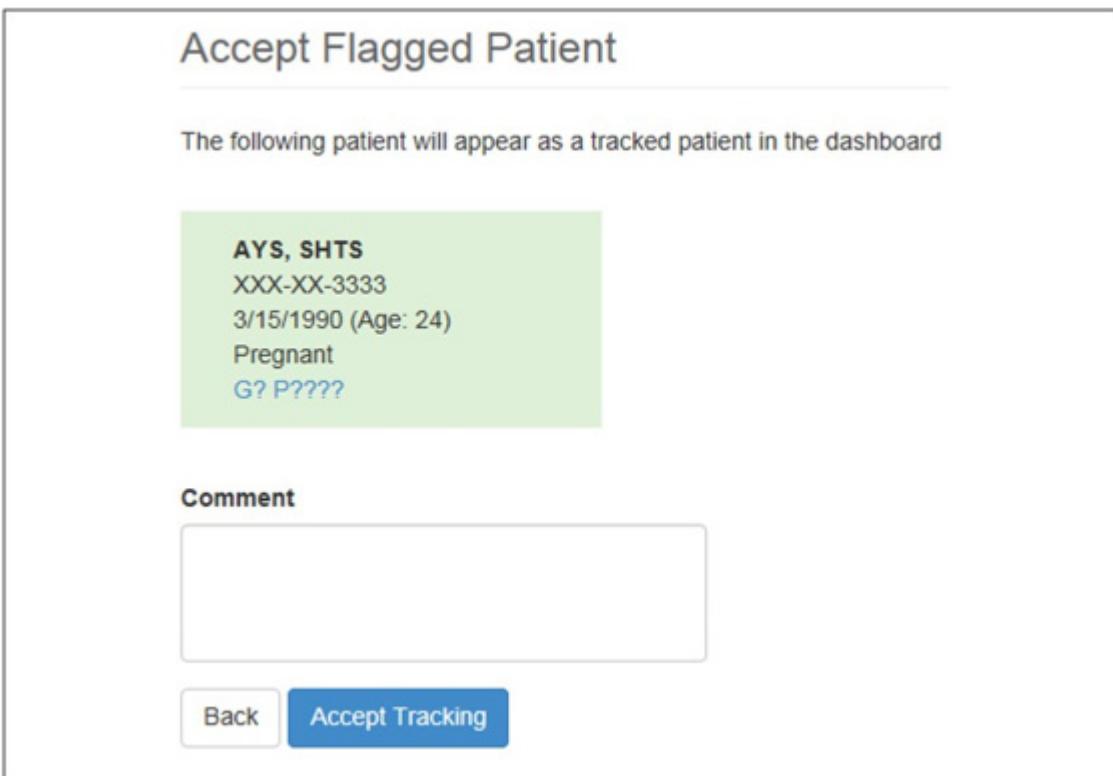

Figure 15: Accept Flagged Patient

Track A Patient

This option allows the user to find a patient to track. The page displays with a search option.

The screenshot shows a web-based application titled "Track A Patient". At the top, there is a search bar labeled "Enter Search Criteria" with a blue "Search" button next to it. Below the search bar is a table with six columns: Name, SSN, DOB, Location, Tracking, and Action. The "Tracking" column contains a "No" button, and the "Action" column contains a "Start Tracking" button. A message "(patient results)" is centered below the table.

Name	SSN	DOB	Location	Tracking	Action
(patient results)					

Figure 16: Track A Patient

Search Patient

To search for a patient from the CPRS directory, type a last name (partial or whole) in the **Enter Search Criteria** field, and click **Search**. The user may also search by last name initial plus the last four digits of the SSN, or by the last name and partial first name. This allows MT to populate with the patients that match the user's search. The page displays Name, SSN, DOB, Location, Tracking, and Action.

The screenshot shows a search results table titled "Track A Patient". It has a search bar at the top with a "Search" button. The table has six columns: Name, SSN, DOB, Location, Tracking, and Action. Each row represents a patient record. The "Tracking" column contains a "No" button, and the "Action" column contains a "Start Tracking" button. The table lists eight patients with various names and dates of birth.

Name	SSN	DOB	Location	Tracking	Action
Sdosxht, Spdybah	XXX-XX-0555	1/1/1955		No	Start Tracking
Shytdsdqh, Hzwaxnhh	Sensitive	Sensitive		No	Start Tracking
Sjehi, Jxzwahsh	XXX-XX-1010	10/10/1910		No	Start Tracking

Sjxss, Dywlsdhys	XXX-XX-7654	5/11/1937		No	Start Tracking
Sjxss, Ihli Wlsdhys	XXX-XX-2345	1/3/1950		No	Start Tracking
Sjxss, Wlsdhys Spx	XXX-XX-2699	12/2/1945		No	Start Tracking
Szdse, Cxlyy	XXX-XX-4444	3/4/1945		No	Start Tracking

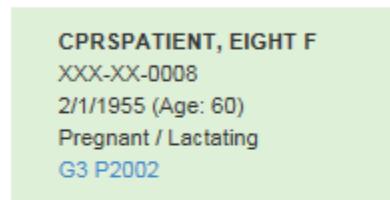

Figure 17: Track A Patient Search

Start Tracking

The user can choose a patient to track by clicking the **Start Tracking** command from the Action column. The user will get a confirmation page to Start Tracking a patient that requires a Reason to be selected from a drop-down list, a check box to update the pregnancy status in MT and allows for a comment to be added in a text box. If the user selects **Back**, they will get the previous page. By selecting Start Tracking, the user is taken to the Tracked Patients Screen and will see their patient added to the list.

Figure 30: Checklist Items

Depending upon the user's role, the user can add to, edit, or delete from this list.

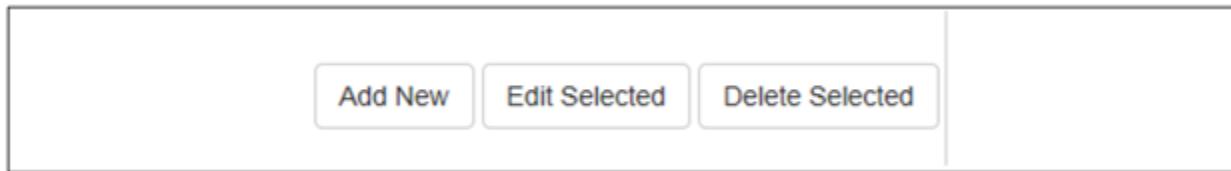

Figure 31: Checklist Items Commands

Add New

To add a new item to the Checklist, click the **Add New** command button and at the **Add New Checklist Item** page, enter the information in the fields provided.

A screenshot of the 'Add New Checklist Item' form. The title is 'Add New Checklist Item'. A green message bar says: 'The following item will be added to the list of default tasks that are added to each patient'. The form has three main sections: 'Type' (dropdown menu '(Select)'), 'Category' (dropdown menu), and 'Description' (text input field). Below these are four radio button options for due dates: 'Due Immediately', 'Due at 0 weeks gestation', 'Due by end of (Select)' (dropdown menu), and 'Due at 0 weeks postpartum'. At the bottom are 'Cancel' and 'Save' buttons.

Figure 32: Add New Checklist Item

From the **Type** field, select from the drop-down list.

Type

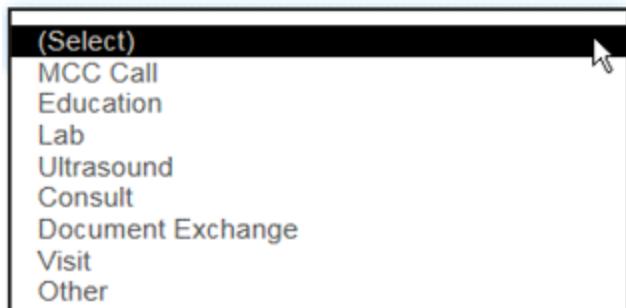

Figure 33: Add New Checklist Item Type Drop-down List

Click **Cancel** to return to the previous page without saving. Click **Save** to store the entry and return to the previous page.

Edit Selected Item

To edit entries of an existing Checklist Item, highlight the item and click **Edit Selected**. Make changes as necessary. Click **Save** to store the entry and return to the previous page. Click **Cancel** to return to the previous page without storing any changes.

The image shows an "Edit Checklist Item" form. At the top is the title "Edit Checklist Item". Below it are several input fields:

- Type:** A dropdown menu showing "Education" as the selected value.
- Education Item:** A dropdown menu showing "(Select)" as the selected value.
- Category:** A text input field containing "2nd Tri Education/Discussion".
- Description:** A text input field containing "Appropriate Weight Gain".
- Due Date Options:** A group of radio buttons and input fields:
 - Due Immediately
 - Due at weeks gestation
 - Due by end of
 - Due at weeks postpartum
- Buttons:** Two buttons at the bottom: "Cancel" and "Save" (in a blue box).

Figure 34: Edit Selected

MCC Dashboard Elements and Functionality – Patient

The dashboard includes a patient label: Name, SSN, DOB, Age, Status and GP history, and menu options. The menu options are Pregnancy Checklist, Pregnancies, Contact History, Notes, text4baby, Labs, Clinical Exchange Documents, Orders, Reminders, Consults, Radiology and Stop Tracking.

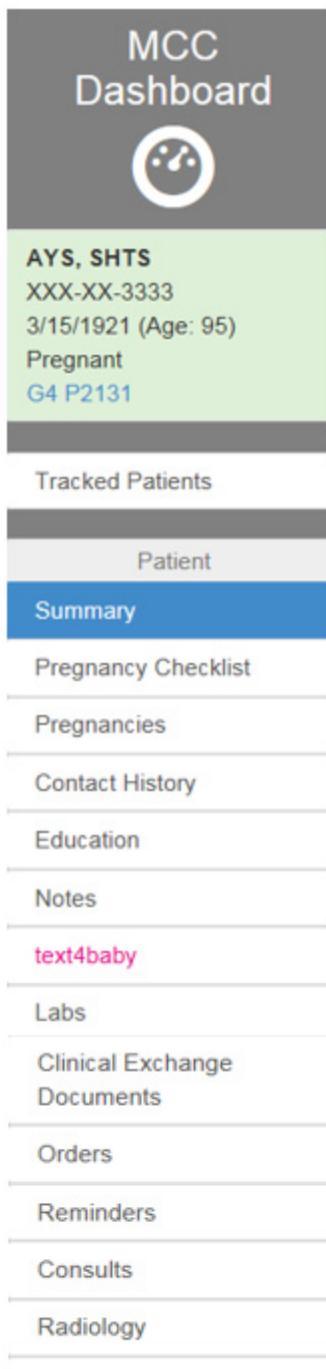

Figure 35: MCC Dashboard - Patient

Tracked Patients

Selecting this option will open the Tracked Patients pages (see the *Dashboard* section of the *MCC Dashboard Elements and Functionality - Tracking and Configuration* chapter).

Summary

From the list of tracked patients, the user can select a patient by double-clicking the name. This opens the Patient Summary window for that patient. The user can enter and edit all the information concerning this patient's pregnancy.

Figure 36: Patient Summary

Patient Details

Displays information about the patient: Name, Age, Pregnancy Status, Postpartum and Lactating, Text4Baby Enrollment, and allows the user to edit the Pregnancy Status, Lactating status and Text4Baby status. In addition, the Action drop down allows the user to update the Pregnancy Status or Lactating status.

Patient Details		Action ▾
Name:	AYS, SHTS	
Age:	95	
Pregnancy Status:	Pregnant	
Postpartum:	Yes: Delivered on 02/25/2016	
Lactating:	No	
Text4Baby Enrollment:	Enrolled on 11/20/2015	

Figure 37: Patient Details Section

Pregnancy Status

To edit or update the patient's pregnancy status, select that field and at the **Pregnancy Status** window, select from the drop-down list (Pregnant or Not Pregnant). Click **Save** to store or **Cancel** to exit without saving.

Pregnancy Status

Current Pregnancy Status:	Pregnant
Today's Pregnancy Status:	<input type="button" value="▼"/>
Save Cancel	
<input type="button" value="Pregnant"/> <input type="button" value="Not Pregnant"/>	

Figure 38: Pregnancy Status

Lactating Status

To edit or update the patient's lactating status, select that field and at the **Lactation Status** window, select from the drop-down list (Lactating or Not Lactating). Click **Save** to store or **Cancel** to exit without saving.

The screenshot shows a window titled "Lactation Status". It contains two rows of input fields. The first row has a label "Current Lactation Status:" followed by a dropdown menu containing the option "Lactating". The second row has a label "Today's Lactation Status:" followed by another dropdown menu also containing the option "Lactating". At the bottom right of the window are two buttons: "Save" and "Cancel".

Figure 39: Lactation Status

Text4Baby Enrollment

To edit or update the patient's Text4Baby Enrollment status, select that field and at the **Text4Baby Enrollment** window, click either **Not Interested** or **Enroll Now**. Click **Patient Summary** to go back to the Patient Summary page.

The screenshot shows a window titled "text4baby". Below it is a section titled "Text4Baby Enrollment". Inside this section, there is a table with one row. The first column is labeled "Text4Baby Enrollment Status:" and the second column shows the value "Unknown". At the bottom of the window are three buttons: "Not Interested" (red), "Enroll Now" (green), and "Patient Summary" (light green).

Figure 40: Text4Baby Enrollment

Clicking **Enroll Now** will result in the display of the enrollment form. Depending on the selection for **Participant Type**, different fields will be unavailable. For instance, selecting **Pregnant** (for Participant Type) will result in the field **Baby Date of Birth** being set to N/A. By selecting **New Mom**, the fields **Due Date Is Known**, **Estimated Due Date**, and **Last Menstrual Period** will be set to N/A.

The image shows the MCC Dashboard interface. On the left is a sidebar with various links: AYS, SHTS; Tracked Patients; Patient; Summary; Pregnancy Checklist; Pregnancies; Contact History; Education; Notes; **text4baby** (which is highlighted in pink); Labs; Clinical Exchange Documents; Orders; Reminders. The main area is titled "text4baby" and contains an "Enroll Patient" form. The "Participant Type" dropdown is set to "Pregnant". Other fields include First Name (SHTS), Email Address (Enter email address), Due Date Is Known (unchecked), Estimated Due Date (Enter EDD), Last Menstrual Period (LMP), Baby Date of Birth (N/A), Mobile Number (Enter patient's mobile phone number), Zip Code (Enter patient's zip code), and Participant Code. At the bottom right are "Cancel" and "✓ Enroll" buttons.

Figure 41: Text4Baby Enrollment Form

After specifying the requested information, clicking **Enroll** will submit the request for registration, for the text4baby service. If registration was successful, then the following window will display.

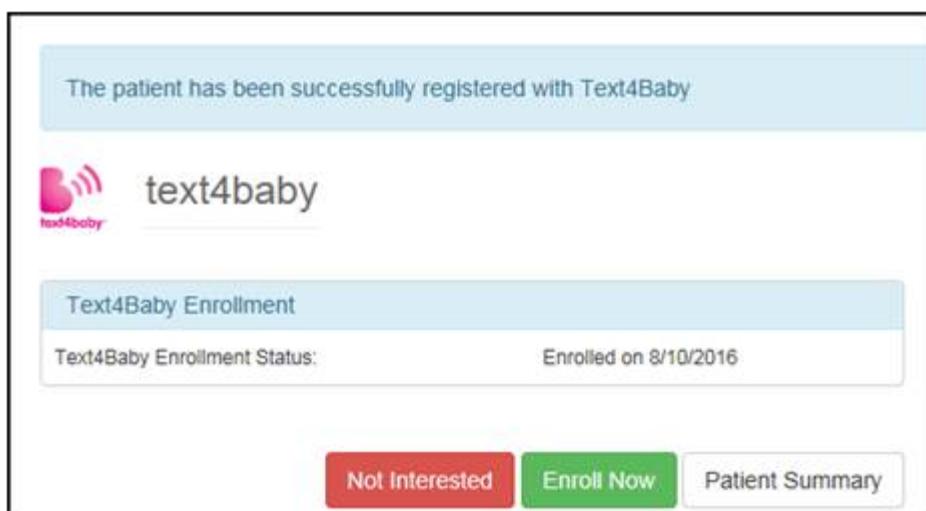

Figure 42: Successfully Registered with Text4Baby

Current Pregnancy

Within the Current Pregnancy section of the Patient Summary page, the user can enter or edit information by selecting the desired field. High Risk, EDD Basis, EDD Is Final, Gestational Age, Trimester, Last Menstrual Period and Multiple Pregnancy fields are view-only. The Action drop-down allows the user to update the pregnancy status, pregnancy details and update the EDD.

Current Pregnancy		Action ▾

Figure 61: Add Pregnancy Checklist Item (Type Drop-down List)

Add Default Items

To add all the default items from the Checklist to the patient, click **Add Default Items**. The user receives a confirmation prompt. Clicking **No** returns the user to the Pregnancy Checklist page. Clicking **Yes** adds the entire list to the patient record (see the *Education Items* section of the *MCC Dashboard Elements and Functionality - Tracking and Configuration* chapter).

Figure 62: Confirmation Prompt

Edit Status

To change the status of a checklist item, select the item and use the options of the drop-down list in the last column.

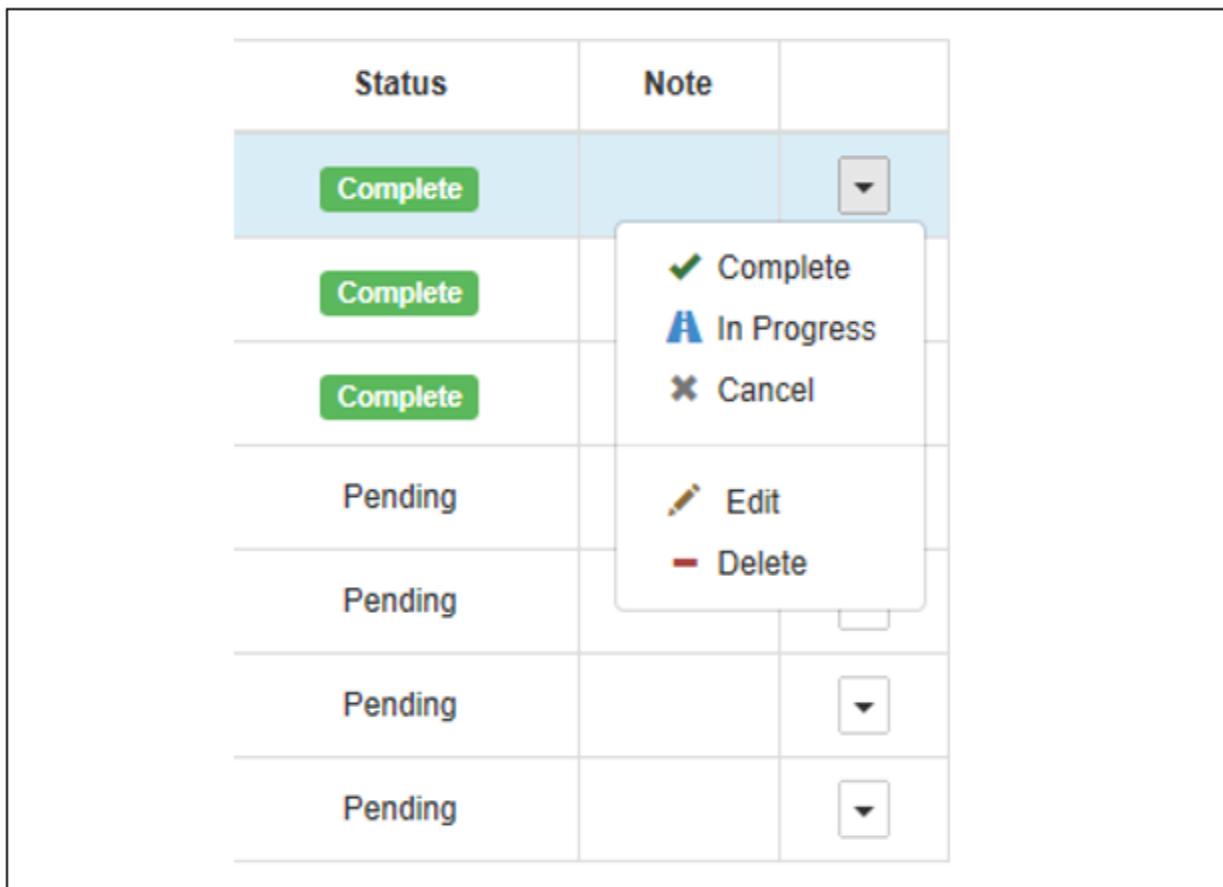

Figure 63: Edit Status

- **Complete:** Marks the item as completed.
- **In Progress:** Marks the item as in progress.
- **Cancel:** Marks the item as canceled (will remain on checklist).
- **Edit:** Allows the user to update or change the item itself; i.e. the type or description, etc...
- **Delete:** **Functionality not currently active**

Pregnancies

The Pregnancies menu option allows the user to view and add to the patient's current and past pregnancies.

Pregnancies

Click **Cancel** to exit without saving and return to the previous page. Click **Save** to store the information and return to the previous page.

Pregnancy Outcome Details

The screenshot shows a user interface for adding pregnancy details. At the top left, there is a label 'Outcome:' followed by a dropdown menu. The dropdown is currently set to 'Unknown' and has a blue border. A list of options is visible in a dropdown menu below it, including: Full Term Delivery (Live Infant 37 or More Weeks), Preterm Delivery (Live Infant 20-36 Weeks 6 Days), Spontaneous Abortion (Pregnancy Loss Prior to 20 Weeks), Fetal Demise/Stillbirth, Pregnancy Termination, and Ectopic Pregnancy. Below the dropdown is a field labeled 'Outcome/Delivery Date:' with an empty input box. At the bottom right of the form are two buttons: 'Cancel' and a larger blue 'Save' button.

Figure 71: Add/Edit Pregnancy Details (Add)

Contact History

The Contact History menu option allows the user to view, edit and add patient contact events. The page header displays the Last Contact, the Next Contact Due and the patient contact information. The list displays pending and completed calls. The list can be filtered by Most Recent Pregnancy, Pregnancy #X or All.

Patient Contact History

The screenshot shows the 'Patient Contact History' page. At the top, there are three boxes: 'Last Contact Unknown' (blue background), 'Next Contact Due 7/9/2015 2 Months Ago' (yellow background), and 'Home: (555) 555-8777 Work: Mobile:' (pink background). Below these is a 'Filter:' dropdown menu with options: Current Pregnancy (Due 2/18/2016), Past Pregnancy (8/14/2014 - Unknown), and All (Unfiltered). The dropdown is currently set to 'Current Pregnancy'. A table below the filter shows one row: 'Phone Call #1 (Initial Contact)' with 'Due' set to 'Immediately', 'Due Date' as '9/27/2015', 'Completed' status, and a 'Call Now' button. At the bottom right are 'Add Call Note' and 'Patient Summary' buttons.

Figure 72: Patient Contact History (Blank)

Add Pregnancy Checklist Item - MCC Call

From the MCC Dashboard, select the Pregnancy Checklist menu option and click **Add Item**. At the Add Pregnancy Checklist Item page, select MCC call from the drop-down list for the field labeled Type. From the Note field, select the phone call from the drop-down list. Each phone call will have a specific set of required topics. Complete the remaining fields as appropriate. Click **Cancel** to exit without saving the information and return to the previous page. Click **Save** to store the information and return to the previous page.

Add Pregnancy Checklist Item

The following item will be added to the list of tasks for the current patient

Type	MCC Call	Completion Status	Not Complete
Note	<input type="button" value="Select"/> (Selected) Phone Call #1 (Initial Contact) Phone Call #2 (12 Weeks) Phone Call #3 (20 Weeks) Phone Call #4 (28 Weeks) Phone Call #5 (36 Weeks) Phone Call #6a (41 Weeks, Not Delivered) Phone Call #6b (41 Weeks, Delivered) Phone Call #7 (6 Weeks Post-Partum) Additional Call	<input type="radio"/> Due Immediately <input type="radio"/> Due at <input type="text" value="0"/> weeks gestation <input type="radio"/> Due by end of <input type="button" value="Select"/> <input type="radio"/> Due at <input type="text" value="0"/> weeks postpartum <input type="radio"/> Due on <input type="text" value="MM/DD/YYYY"/>

Alcohol

The user is instructed to record and educate the patient regarding alcohol consumption. Click the **Next** button to proceed to the next tab in the call.

This screenshot shows the 'Alcohol' tab of a mobile application. At the top, there is a navigation bar with tabs: Intro, Coverage, Health, Smoking, **Alcohol**, Depression, IPV, and End. The 'Alcohol' tab is currently selected and highlighted in blue. Below the navigation bar, the title 'Alcohol' is displayed in a green header bar. The main content area contains several input fields and buttons:

- A checkbox labeled 'Verify alcohol use status (complete clinical reminder if not done)'. This field is currently unchecked.
- A radio button labeled 'Patient Drinks Alcohol'. This field is checked.
- An input field with a dropdown menu showing '0 Per Day'. The dropdown arrow is pointing down.
- A radio button labeled 'Patient Does Not Drink Alcohol'. This field is unchecked.
- A checkbox labeled 'Educate: Danger of alcohol to fetal development. No amount of alcohol is safe'. This field is currently unchecked.

At the bottom right of the screen, there are several action buttons: 'Previous' (blue), 'Next' (blue), 'Preview/Finish' (green with a checkmark), 'Delete' (red), and 'Contact History' (gray).

Figure 87: Alcohol Tab

Depression

The user is instructed to assess and record the patient's depression status. Click the **Next** button to proceed to the next tab in the call.

This screenshot shows the 'Depression' tab of a mobile application. At the top, there is a navigation bar with tabs: Intro, Coverage, Health, Smoking, Alcohol, **Depression**, IPV, and End. The 'Depression' tab is currently selected and highlighted in blue. Below the navigation bar, the title 'Depression & Suicide' is displayed in a green header bar. The main content area contains two sets of questions and a summary section:

- A question: 'In the past 2 weeks, how often have you been bothered by little interest or pleasure in doing things?'. It includes four radio button options: 'Not at all (0)', 'Several Days (1)', 'More than half the days (2)', and 'Nearly every day (3)'. The first option is selected.
- A question: 'In the past 2 weeks, how often have you been bothered by feeling down, depressed or hopeless?'. It includes four radio button options: 'Not at all (0)', 'Several Days (1)', 'More than half the days (2)', and 'Nearly every day (3)'. The first option is selected.

A yellow summary bar at the bottom displays the text 'Patient Score: 2'.

At the bottom right of the screen, there are several action buttons: 'Previous' (blue), 'Next' (blue), 'Preview/Finish' (green with a checkmark), 'Delete' (red), and 'Contact History' (gray). There is also a checkbox labeled 'Suicide screen and referral to resources if total score = 3 or more' which is currently unchecked.

Contraception

The user is instructed to assess and record the patient's contraceptive plans. Click **Next** to proceed to the next tab in the call.

This screenshot shows the 'Contraception' tab selected in a navigation bar. The main content area is titled 'Family Planning (Contraception)' and contains a list of tasks:

- Assess if patient has discussed family planning with OB. If not, encourage patient to discuss with OB. (If previously requested authorization for TL or IUD, ask if patient has discussed TL/IUD.)

A large 'Notes' text area is available for additional comments. At the bottom right are standard navigation buttons: Previous, Next, Preview/Finish (highlighted in green), Delete, and Contact History.

Figure 93: Contraception Tab

PP Visit (Postpartum Visit)

The user is instructed to assess the patient's postpartum appointment status, review importance and purpose, and record any notes. Click **Next** to proceed to the next tab in the call.

This screenshot shows the 'PP Visit' tab selected in a navigation bar. The main content area is titled 'Post-Partum Visit' and contains a list of tasks:

- Assess if patient has scheduled post-partum visit. If not, encourage patient to do so.
 - Offer VA PCP visit if patient not planning to return to OB for this visit.
- Review importance and purpose of post-partum visit

A large 'Notes' text area is available for additional comments. At the bottom right are standard navigation buttons: Previous, Next, Preview/Finish (highlighted in green), Delete, and Contact History.

Figure 94: PP Visit Tab

End

The last tab for each possible phone call is the End tab, which instructs the user to offer to answer questions the patient has, record notes, summarize the call and confirm next call. The user is further instructed to encourage patient to contact the MCC or OB at the VA, and reiterate what the patient should do in an emergency.

Notes

Dashboard Notes allow the user to document in MT any activities deemed appropriate. These notes populate into the patient's CPRS record. The page shows a list of notes to include Date/Time, Title, Subject, Author and Signature Status and can be filtered by Current Pregnancy, past Pregnancies or All. From the options on this page, the user can select an existing note to addend, edit, sign, delete, view or add a new note. Clicking the **Return to Summary** option takes the user to the Summary page.

Figure 105: Dashboard Notes

Addendum

The user may make an addendum to a signed Dashboard Note. Highlight the note from the list and click **Addendum**. The Create Addendum page opens with a free-text box for the user to type additional information. Click **Cancel** to exit without saving and return to the previous page. Click **Save** to store the addendum text to the Dashboard Note.

The screenshot shows a window titled "Create Addendum". Inside, there is a section labeled "Addendum Text:" containing a text input field with the placeholder text "Patient will continue to monitor LE edema.". At the bottom right are two buttons: "Cancel" and "Save", with "Save" being blue and highlighted.

Figure 106: Create Addendum

Edit

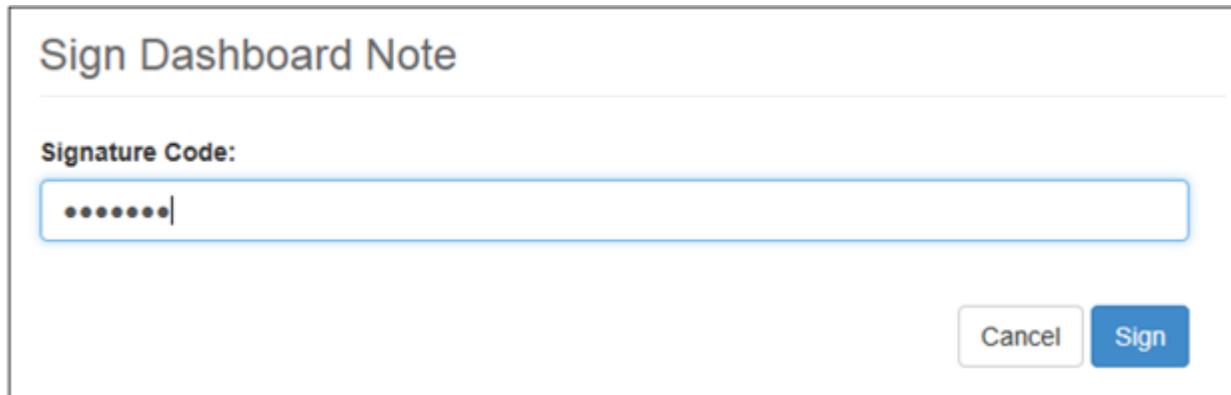

To edit an existing note, highlight and select the note from the list and choose the **Edit** option. An edit window opens and allows the user to edit text in the fields provided. Click **Save** to store the edits, or **Cancel** to return to the previous page without saving.

The screenshot shows a window titled "Edit Dashboard Note". Inside, there is a section labeled "Dashboard Note Text" containing a text input field with the placeholder text "Patient called to verify next tests due dates.". At the bottom right are two buttons: "Cancel" and "Save", with "Save" being blue and highlighted.

Figure 107: Edit Dashboard Note

Sign

To sign a note, highlight the note and click **Sign**. At the Sign Dashboard Note window, type in the CPRS electronic signature code in the field provided. Click **Cancel** to return to the previous page without signing. Click **Sign** and the user returns to the previous page and the Signature Status field updates to Completed. The note status in CPRS updates to Signed.

The image shows a dialog box titled "Sign Dashboard Note". Inside, there is a label "Signature Code:" followed by a text input field containing "*****|". At the bottom right are two buttons: "Cancel" and "Sign".

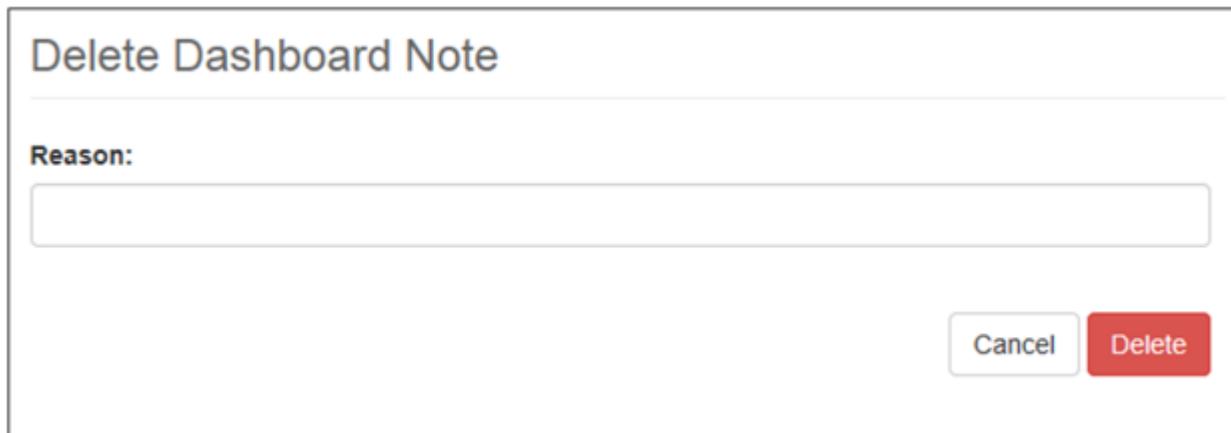

Figure 108: Sign Dashboard Note

Figure 109: Signature Status Updated

Delete

Highlight the unsigned note and click **Delete**. A window displays requiring the user to indicate a reason for deleting this note. Click **Cancel** to return to the previous page without deleting. Click **Delete** to return to the previous page that no longer displays the note.

The image shows a dialog box titled "Delete Dashboard Note". Inside, there is a label "Reason:" followed by a large text input field. At the bottom right are two buttons: "Cancel" and a red "Delete" button.

Figure 110: Delete Dashboard Note

View

Highlight the note and click **View**. The note opens for review but cannot be edited. Click **Return to List** to exit the view.

The screenshot shows a 'Dashboard note' interface. At the top left, it says 'Dashboard note:'. Below that is a box containing note details and text. The note details include:
LOCAL TITLE: MCC DASHBOARD NOTE
STANDARD TITLE: OB GYN NOTE
DATE OF NOTE: SEP 16, 2014@12:27:10 ENTRY DATE: SEP 16, 2014@12:27:10
AUTHOR: CPRSPHYSICIAN,ONE EXP COSIGNER:
URGENCY:
SUBJECT: Patient Call
Below the details is the note text:
Patient called to verify next tests due dates.
At the bottom right of the note area is a 'Return to List' button.

Figure 111: Dashboard Note / View

New Note

To add a dashboard note, click **New Note**. At the New Dashboard Note, the user can enter free text in the provided fields. Click **Cancel** to return to the previous page without saving. Click **Save** to store the note and return to the previous page. The list updates to display the new note. The note crosses into CPRS as unsigned.

The screenshot shows a 'New Dashboard Note' form. It has two main sections: 'Subject' and 'Dashboard Note Text'.
The 'Subject' section contains a text input field with the value 'Patient call'.
The 'Dashboard Note Text' section contains a larger text input field with the value 'Patient going out of town for 2 weeks.'.
At the bottom right of the form are 'Cancel' and 'Save' buttons.

Figure 112: New Dashboard Note

Text4Baby Enrollment

See the *Patient Details* section of the *MCC Dashboard Elements and Functionality - Tracking and Configuration* chapter for details on Text4 Baby Enrollment.

Labs

The Labs option from the Dashboard allows the user to view lab results from the patient's CPRS record. The window allows the user to filter the results by: All Labs, Prenatal Only, Current Pregnancy and All Pregnancies. The list includes Specimen, Collected, Test, Result/Status, Flag, Units, and Ref Range. The user can exit this window by clicking the **Patient Summary**.

Send Document

Clicking **Send Document** (from the Clinical Exchange Documents page) allows the user to choose a document by title then by source (Note or Date range) and enter the recipient information in the fields provided. Clicking **Patient Summary** returns the user to the Summary page.

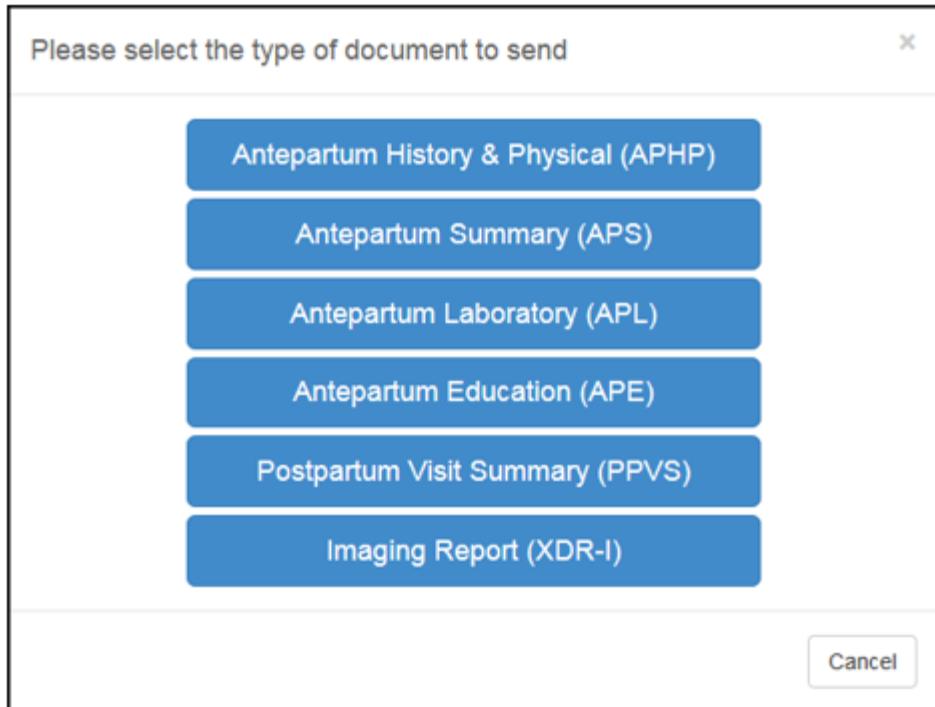

Figure 120: Exchange Document Options (Select Document Type)

Selecting **Send Document** will display the screen for processing the request to send. Clicking **Cancel** returns the user to the previous page without sending a document.

A screenshot of a form titled "Antepartum History & Physical - Options". The form is divided into two main sections. On the left, there is a dropdown menu labeled "Please select the source of the document data:" with "(Select)" as the current value. On the right, there is a section labeled "Please enter information about the intended recipient:" containing three input fields: "Recipient First Name", "Recipient Last Name", and "Recipient Organization Name", each with a corresponding text input box. At the bottom right of the form, there are three buttons: "Patient Summary" (gray), "Generate" (blue), and "Cancel" (gray).

Figure 121: Exchange Document Options (Send Document)

For each of the IHE documents available to send, this screen will be similar, with the exception of the specific document (Antepartum History & Physical in the above example). The source is what differs between the various IHE documents.
